Taskforce Australia: three commercial observations from ProfitPulse**01****Two products, one blended margin**

RentSafe compliance checks, RentRepair maintenance subscriptions, and manufacturer warranty servicing are priced and resourced differently, yet revenue is reported as one blended figure. Without a line by line margin view it is hard to tell which line is funding the growth and which is diluting it.

02**Two very different customers**

RentSafe and RentRepair serve real estate agencies and property managers, who chase compliance and tenant satisfaction. Warranty servicing serves manufacturers, who chase fault rates and callback costs. These groups pay, churn and cost to serve very differently, and that unevenness is worth mapping.

03**Flat headcount, doubling revenue**

Revenue rose from \$7.43 million in FY23 to \$12.8 million in FY25 while the team held at 19 to 20 people, a genuine operating leverage story built on a network of over 5,500 tradespeople rather than headcount. The next stage of growth deserves a costed plan for the platform and working capital.

These observations are offered in good faith. Taskforce has built a genuinely scaled national platform. The question is simply whether the margin picture is as clear as the growth curve.
