iCatalyst: three commercial observations from ProfitPulse**01****Four offices, one growth plan?**

iCatalyst added its fourth office this year through the Beyond CRM acquisition in Brisbane, joining Perth, Melbourne and Sydney. Each site carries its own hiring, marketing and integration cost. A Capital Allocation Review would rank where the next dollar across these four sites should go before FY26 spend is committed.

02**Average deal size just tripled**

Average project value grew from \$100,000 to \$350,000 as headcount scaled to 50, with seventy percent of revenue still tied to time based project work. A Workforce Capacity and Utilisation Review would show which offices carry spare delivery capacity and which are stretched thin.

03**FY26 targets need a costed pathway**

iCatalyst has set FY26 targets of thirty percent growth in managed services revenue and twenty five percent growth in customers, plus new proprietary IP. A Strategic Growth Diagnostic would turn those public targets into a costed, scenario tested twelve month roadmap before the year begins.

These observations are offered in good faith. iCatalyst has built something rare in five years. The question is simply whether the capital plan matches the ambition.
