Sententia Consulting: three commercial observations from ProfitPulse

01

Growth is outrunning infrastructure

A 60.2 percent three year revenue CAGR took Sententia from two founders to a near 20 strong team and a second state office in under five years, per the 2025 AFR Fast 100 and Consultancy.com.au. At this pace, capacity planning and capital allocation typically lag delivery. A Strategic Growth Diagnostic maps revenue, capacity and margin headroom into a costed 12 month plan before that gap widens.

02

Two agencies carry over half the book

Public federal contract records show Services Australia and the Department of Health and Aged Care together account for more than half of Sententia's \$45.3 million lifetime Commonwealth contract value, per Pollywatch. A strong panel position, and a concentration worth watching as a standing item, the kind of visibility a Fractional CFO Partnership keeps in view every month.

03

Two offices means two engines to plan

Canberra and Melbourne each carry their own delivery leadership and their own billable mix. As headcount keeps growing across both sites, per Consultancy.com.au reporting on recent hires, seeing utilisation and revenue per consultant clearly across two offices gets harder without dedicated tracking. A Workforce Capacity and Utilisation Review builds that view.

These are observations offered in good faith. Sententia has built something impressive. The question is simply whether the financial architecture matches the ambition.

Strategic Growth Diagnostic

\$5,000 one off
