National Media | Three commercial observations from ProfitPulse

01

Acquisition integration: know which events earn

National Media now manages more than 30 event brands, including five acquired Foodservice and Hospitality titles added in May 2024. Each event carries its own venue commitment, staffing structure, exhibitor base, and overhead. Without a line by line view of which events contribute margin and which consume it, growth capital tends to follow volume rather than return. A Strategic Growth Diagnostic maps revenue, capacity,

03

Growth momentum needs a funded road map

From 48 to 50 or more people, from \$18.4 million toward a doubling trajectory confirmed by both Smart50 and AFR Fast 100, National Media has built genuine commercial momentum. At this scale, the constraint shifts from growth appetite to financial architecture: where to concentrate the next dollar, how much capacity exists before the next hire is required, and which events warrant increased

These observations are offered in good faith. National Media has built something genuinely impressive. The question is simply whether the financial architecture matches the ambition.

Strategic Growth Diagnostic

\$5,000 one off

A six week engagement that maps revenue, capacity, and margin headroom across the combined event portfolio, then produces a 12 month growth plan with funding and capital allocation steps. Three scenario modelling. For National Media, this is the funded road map that turns a high growth event portfolio into a deliberately scaled business.
