Taskforce Australia: three commercial observations from ProfitPulse

01

Three lines, one blended number

TradieConnect, RentSafe since 2021, and RentRepair each serve a different customer: manufacturers, property managers, and landlords. Smart50 citations report only one blended revenue and growth figure across all three. As volume compounds, the open question is which line is carrying that growth and which is diluting margin.

02

Three straight years, one inflection point

Taskforce Australia has placed in the Smart50 list three years running, 2023 to 2025, climbing from rank 46 to rank 37 as revenue rose from \$9.7M to \$12.8M. Telstra named this Outstanding Growth in 2024. A three year compounding pattern like this is usually the point where the plan that carried early growth needs a deliberate reset for the next stage.

03

Doubled clients, one dashboard

The 2024 Telstra Best of Business citation records the agency client base doubling within twelve months, the same year the 2024 Proptech Awards named the platform Most Innovative Proptech. Client growth at that pace across a large tradesperson network adds real operating complexity behind a clean headline number.

These are observations offered in good faith. The company has built something impressive. The question is simply whether the financial architecture matches the ambition.
