## KEY COMMERCIAL SIGNALS

- Revenue grew 31 percent year on year to \$12.8 million, Smart50 2025 rank 37.
- New 2025 partnership with Real plus extends reach across property agencies nationally.
- Platform integrates with PropertyMe, MRI Property Tree and Console, serving 500 agencies.
- National network of 5,000 tradespeople delivers compliance, maintenance and warranty work.
- Named Victorian State Winner for Outstanding Growth, 2024 Telstra Best of Business Awards.
- Winner, Proptech Association Awards 2024, for the RentSafe and RentRepair platform.

## Three commercial observations from ProfitPulse

### 01

#### Three lines, three margins

Taskforce runs three lines: RentSafe compliance checks, RentRepair maintenance and manufacturer warranty servicing. Each carries a different cost base and margin profile. Past \$12.8 million in revenue, the real question is whether every line is growing profit as fast as it is growing revenue.

### 02

#### A lean team, a wide network

Nineteen internal staff coordinate a national network of 5,000 tradespeople across compliance, maintenance and warranty work. That leverage is a real asset, and it also means margin now lives in how well each job type and service line is priced and tracked at scale.

### 03

#### Three new doors just opened

The 2025 partnership with Real plus, alongside integrations with PropertyMe, MRI Property Tree and Console, opens the platform to more of the 500 agencies it already serves. New distribution is only as valuable as the margin behind the services it sells.

*These observations are offered in good faith. Taskforce has built something genuinely impressive since 2014. The question is simply whether the margin behind each service line is as clear as the growth number.*

# Product and Service Line Profitability

\$3,950 one off

A three week project ranking every product or service line by gross margin, contribution margin and operational drag. For Taskforce, that means a clear, sourced view of what RentSafe, RentRepair and manufacturer warranty work each contribute once network payouts, platform costs and service time are counted.
